THE QUARTZ

核心理念在于创造两种特性对立却又互补的材料之间的对话。

这种设计方法基于融合两种截然不同的地质和文化历史的理念。巴厘岛石材唤起热带风情与康养氛围，是奢华度假村的典型元素。石英则以其坚硬质地和千年历史，象征着力量与经典优雅。它们的结合是将两个世界的精华——异域风情与无与伦比的坚固——融入单一项目的绝佳方式。

The main idea is to create a dialogue between materials with opposing yet complementary characteristics.

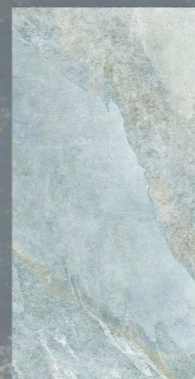

This design approach is based on the idea of uniting two distinct geological and cultural histories. Balinese stone evokes tropical and wellness atmospheres, typical of luxury resorts. Quartz, with its hardness and millennia-old history, symbolizes strength and classic elegance. Their union is a way to bring the best of both worlds into a single project: exotic allure and unparalleled solidity.
